Key Club President Alaysha Hutchinson

Good day everyone. I am President Alaysha Hutchinson of the St. Hilda's Diocesan High School. Some adjectives that I would use to describe myself are 'Dedicated', 'Persuasive', 'Persistent' and 'Charismatic'. 'Every job is a portrait of the person who did it; therefore autograph your work with excellence.' is a quote that I live by. I was introduced to Key Club through the friends that I had in higher grade levels. They were all a part of the executive body and took me along to their meetings. That sparked my interest in the club and I gradually wanted to learn more. My favourite Key Club event is District Convention. It is great opportunity to form enduring friendships. I absolutely love this club and the opportunities I get to give back to my school and community through outreach.

Three (3) fun ways to describe myself: I love to laugh, I love weirdly expressing myself and I am artistic.

I was introduced to Key Club by the then Vice President, Alaysha.

My favourite Key Club event is the Annual Church Service because after being blessed with a lovely service, we partake in a road march where we interact with club members from the various schools.

Key Club is the club for me because it is about helping people, and I love service.

What is a quote you live by?

"A dream does not become reality through magic; it takes sweat, determination, and hard work."- Collin Powell

Feature Continued..

Kiwanis Club President Shanoyia Graham

Give a little background information about your club...The Kiwanis Club of Charlton-Alexandria was formed 21 years ago on the 12th of May of 1999. Since then, the 'little, but talawah' family has managed to make its mark through numerous projects and partnerships, both local and abroad.

We also endorse distinguished presidents and secretaries and a DLGE; our very own Richard Austin (club advisor). We have celebrated many accomplishments, but our greatest of all are the smiles we receive from those whom we've served.

What does the Kiwanis mean to you? For me, Kiwanis is a symbol of hope for those in need, particularly children. It embodies the fact that there are genuine people who are willing to help those in need.

What is it about Kiwanis that makes it so special? The satisfaction received from the impact of our projects. The teamwork, camaraderie, the feeling of family and the gift of giving.

What is your approach when it comes to the service you provide through Kiwanis? Is it genuine, does it come natural? My approach to service through Kiwanis comes naturally as I enjoy giving back. It is as though it is a second nature as the joy I feel through service, compares to no other.

DLG Trudy-Ann Sterling of UWI Circle-K

Hey Division 4, I am DLG Trudy-Ann Stirling. After leaving Key club, I took a step up the ladder of Kiwanis and joined Circle K at the University of West Indies, Mona Campus.

Circle k is the largest student-led collegiate organization, whose mandate is to build not just our communities but ourselves as well as the people around us.

For me, this step was one I felt was a necessity as I worked with two Circle K divisions while serving as LG for Division 1, with the aim of bridging the gap between the two branches of Kiwanis. Since joining this organization in 2019, I can comfortably say it allowed my first year experience to be nothing less of iconic. It gave me a small area of familiarity and comfort while allowing me to grow into the huge space that is UWI. It must be said that the Circle K experience will, without a doubt, be different for everyone. However, it provides for all a great avenue for leadership, fellowship and most importantly service.

K-Family Feature Continued..

1. Leadership:

DLG Trudy-Ann Sterling of UWI Circle-K

Similar to Key Club, Circle K serves to build our character through leadership. It gives us the opportunity to further learn about ourselves and those around us. Leadership helps to build, among other things, proper communication skills, which we will need to utilize as we progress in life.

2. Fellowship:

Starting university can be quite scary, however, joining Circle K can help to make this process a bit easier. CKI is an organization that accepts and appreciates all; the diverse nature is a calming one. You're able to meet people from different backgrounds as well as gain an appreciation for each. Amazing bonds can be formed with people across the world through CKI. For example, the current CKI President Billy Hackett has been an amazing friend to me and many others from the Caribbean District.

3. Service:

Service and serving is the most important part of Circle K. This is the very ground the organization was built on. As Key Clubbers, service is nothing new and so, all I wish to say is that we should remember the main reason why we are a part of this amazing family. Circle K has quite a few signature projects that never fails to remind me. These include Meals on Wheels, annual Blood Drives and the WASH initiative.

I now serve my club as 1st Vice-President, in charge of committees and I believe the decision I made in September to join this organization was one that allowed me to grow in myself and assist others to grow as well. For these reasons, I truly hope you all take the next step and join the Circle K club in the university or college you choose to attend. Also, if they don't have one established, do not be afraid to make the big step and start that family.
